

Dear Colleagues

We are about to reach the targets that we set at the beginning of the year this year. We have been working so hard to achieve these goals including the publication speed. According to our data, the publication speed has increased significantly after the radical changes in our journal since 2018. In the second half of the year, we will continue to work hard to bring our journal to high standards. Towards the end of this year, we are planning to apply for ESCI and PubMed indexes. JCOG is one of the oldest scientific journals published in Obstetrics and Gynecology in Turkey. We made much easier for you to reach our old issues and the articles on www.jcog.com.tr, which are the high quality in scientific studies from Turkey. In addition, JCOG will continue to support young academicians in the field of professional manuscripts English editing, statistical analysis and full manuscript writing. Those who wish to benefit from these supports can contact our editorial office.

In this issue, we again have given priority to the original articles. All subspecialties of Obstetrics and Gynecology were covered. I hope you enjoy reading the articles. I would like to express my gratitude to all JCOG journal readers for your interest and support.

Çağrı Gülümser, MD

Editor in Chief
